

Although Covid restrictions have now been lifted, Public Health England's infection prevention control guidelines remain unchanged.

As such, to help protect vulnerable Patients attending the Surgery, we are still offering a Telephone First appointment service for Patients who wish to speak to a GP. The GP will then arrange a face to face appointment when clinically necessary.

So remember, you MUST continue to wear a face covering/mask and maintain social distancing measures

when invited to attend

**Waters Green Medical Centre.**

Thank you for your understanding and compliance.
